Introduction to Mobility for Sage Production Management

About this Guide

This guide provides the information necessary for installing Mobility for Sage Production Management.

Important Information

Read this guide completely before installing Mobility 6.2011 for Sage Production Management 6.20.1.0.0. Before installing Mobility 6.2011 for Sage Production Management 6.20.1.0.0, install and register Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium 2020, Sage 100 2020 Product Update 1, and Sage Production Management 6.20.1.0.0.

Please refer to the Sage 100 Installation and System Administrator's Guide for information on installing Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium and Product Update 1. Refer to the Sage Production Management 6.20.1.0.0 Installation Guide on installing Sage Production Management 6.20.1.0.0.

Warning: Install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 into a parallel test Sage 100 environment. Performing a test upgrade or a test new install allows you to resolve issues that may occur during the live upgrade or live new install, reducing downtime and allows you to get a rough estimate of how long the upgrade process will take. Refer to the Sage Knowledgebase article ID 101266 for more information. As not noted in the Sage Knowledgebase article before step 20, third party products must be re-installed after a migration.

Warning: Mobility 6.2011 for Sage Production Management 6.20.1.0.0 may not be compatible with non-Scanco third party products. If third-party products are integrated with Sage 100, check with the vendor of the third-party product to ensure their product is fully compatible with this release. If other Sage products are integrated, check with a business partner or Sage to ensure that these components are compatible.

Warning: When Scanco Multi-Bin for Sage Production Management is installed in Sage 100, refer to the Mobility 6.2011 for Scanco Multi-Bin for Sage Production Management installation guide. An installer that is specific to Scanco Multi-Bin for Sage Production Management must be used to install Mobility 6.2011 for Scanco Multi-Bin for Sage Production Management. Scanco Multi-Bin for Sage Production Management and Mobility for Scanco Multi-Bin for Sage Production Management will be available soon.

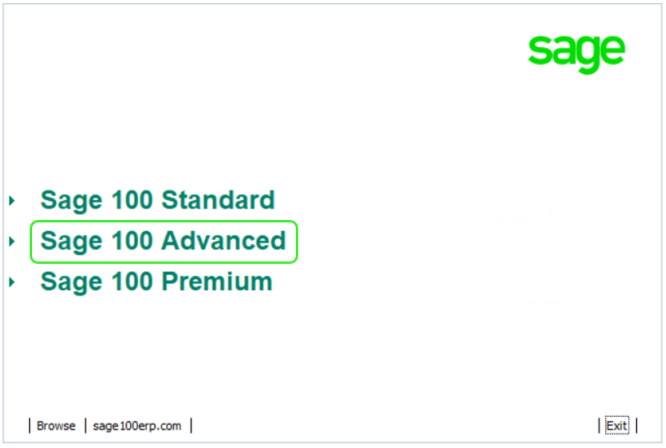
Note: Please contact your authorized Sage Production Management partner or the Sage Support department at 866-996-7243 or https://customers.sagenorthamerica.com for assistance with Sage Production Management. Please contact Scanco Support at support@scanco.com for assistance with Mobility for Sage Production Management.

Mobility for Production Management Pre-Installation Checklist

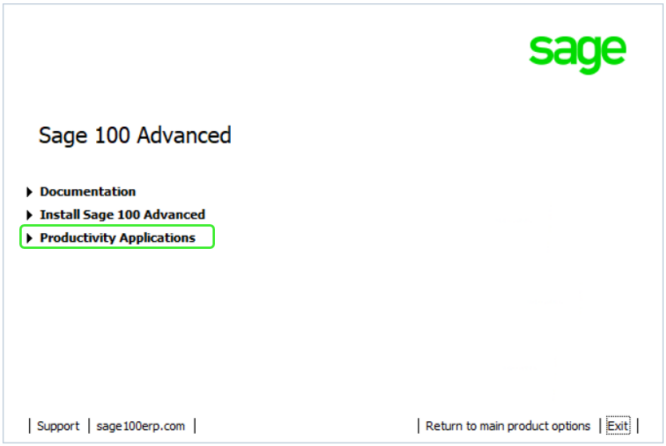
Complete the following pre-installation checklist prior to installing Mobility 6.2011 for Sage Production Management 6.20.1.0.0 to ensure a successful installation.

- ☐ Do ***not*** install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 when custom modifications exist on Sage or Scanco modified modules or products. Custom modifications must be retrofitted to the current Sage 100 version. Please contact your Sage or Sage Production Management partner or Scanco for information on how to obtain a quote for custom modifications to be retrofitted to Sage 100 2020 with Mobility 6.2011 for Sage Production Management 6.20.1.0.0.
- ☐ Do ***not*** install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 when extended solutions or third-party products are installed on the Sage 100 system. Please contact your Sage Production Management partner, the Sage Support department at 866-996-7243 or https://customers.sagenorthamerica.com or Scanco Support at support@scanco.com for information on evaluating extended solutions or third-party software.
- ☐ Confirm that the Sage 100 installed version is 6.20.1.0 for the Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium system. Access Help menu > About Sage to review the currently installed Sage 100 version. To review additional information on the currently installed Sage 100 system in the Sage 100 System Information window, select File menu > Run. Type *info in the Program field. Select the OK button.
- ☐ Confirm that Sage Production Management 6.20.1.0.0 is installed.
- ☐ Backup the entire Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium system, including programs and data files, after all data entry files are updated, and before installing Mobility 6.2011 for Sage Production Management 6.20.1.0.0.
- ☐ Download the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation file and specify registration information from http://info.scanco.com/prod-mgmt-downloads The Sage Production Management downloads page can be accessed from the Sage 100 2020 installation wizard.

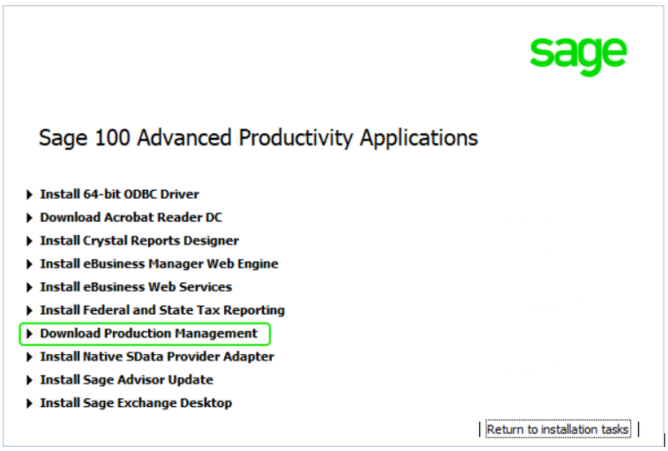
  1. From the Sage 100 2020 installation Autorun screen, click a version of Sage 100.



2. From the Installation Tasks menu, click Productivity Applications.



3. Click Download Production Management to access the Sage Production Management downloads page.



Mobility for Sage Production Management Installation Checklists

New Installation of Sage 100 with Mobility for Sage Production Management

- ☐ Complete the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 pre-installation checklist.
- ☐ Install Sage 100 2020. Refer to the Sage 100 2020 Installation and System Administrator's Guide.
- ☐ Install Sage 100 2020 and Product Update 1. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Run the Sage 100 workstation setup process on all applicable workstations. Refer to the Sage 100 2020 Installation and System Administrator's Guide.
- ☐ Install Sage Production Management 6.20.1.0.0. Refer to the Sage Production Management installation checklists and the Installing Sage Production Management section in the Sage Production Management Installation Guide.
- ☐ If hot fixes are available on the Sage Production Management Downloads page for Sage Production Management version 6.20.1.0.0, install Sage Production Management 6.20.1.0.0 hot fixes. Refer to the Sage Production Management Installation Guide.
- ☐ Install Mobility 6.2011 for Sage Production Management 6.20.1.0.0. Refer to the Installing Mobility for Sage Production Management section on page 11.
- ☐ If hot fixes are available on the Sage Production Management Downloads page for Mobility 6.2011 for Sage Production Management version 6.20.1.0.0, install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 hot fixes. Refer to page 18.
- ☐ Activate the required and optional Sage 100 modules and the Sage Production Management module from Library Master Main menu > Company Information. Refer to page 15. The Mobility for Bar Code module must be activated when Scanco Warehouse 100 is to be used when Sage Production Management is installed in Sage 100.
- ☐ Create and set up company data files for required and optional Sage 100 modules. Refer to the Creating Company Data Files for Sage 100 Modules section on page 15.
- ☐ Define role security for the all modules from Library Master Main menu > Role Maintenance.
- ☐ Register Mobility 6.2011 for Sage Production Management 6.20.1.0.0 from Library Master Setup menu > Scanco Product Registration. Refer to the Registering Mobility for Sage Production Management section on page 16.
- ☐ If not previously conducted during the company conversion process from Company Information, access the Custom Office Utilities Menu and run the update customized panels by selecting Custom Office Utilities menu > Update Customized Panels to Current Level. Review the placement of all user-defined fields. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Reset all grids.
- ☐ Verify the Sage 100 and Sage Production Management versions by accessing Production Management Setup menu > About Production Management. Refer to the About Production Management section in the Sage Production Management Installation Guide.
- ☐ Set up Sage Production Management options using the Production Management Setup Wizard. Access the setup wizard from Production Management Setup menu > Production Management Options.
- ☐ Access Production Management Mobility menu > Create Mfg Mobility Import Files. Select the Proceed button from the task window to create or convert Mobility for Sales Production Management data files.
- ☐ To use Scanco Warehouse 100 with Sage Production Management installed in Sage 100, set up the Mobility for Bar Code module by accessing Mobility for Bar Code Setup menu > Mobility for Bar Code Options.

Upgrading Sage 100 to 2020 with a New Installation of Production Management and Mobility for Production Management

- ☐ Complete the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 pre-installation checklist.
- ☐ Backup the entire Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium system, including programs and data files, after all data entry files are updated, and before installing Mobility for Scanco Multi-Bin version.
- ☐ Conduct a parallel installation of Sage 100 2020 when upgrading from version 2019 or lower. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Install Sage 100 2020 Product Update 1. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Run the Sage 100 workstation setup process on all applicable workstations. Refer to the Sage 100 2020 Installation and System Administrator's Guide.
- ☐ Migrate and convert Sage 100 data to 2020.1 version 6.20.1.0. Refer to the Sage 100 2020 Installation and System Administrator's Guide.
- ☐ Install Sage Production Management 6.20.1.0.0. Refer to the Sage Production Management installation checklists and the Installing Sage Production Management section in the Sage Production Management Installation Guide.
- ☐ If hot fixes are available on the Sage Production Management Downloads page for Sage Production Management version 6.20.1.0.0, install Sage Production Management 6.20.1.0.0 hot fixes. Refer to the Sage Production Management Installation Guide.
- ☐ Install Mobility 6.2011 for Sage Production Management 6.20.1.0.0. Refer to the Installing Mobility for Sage Production Management section on page 11.
- ☐ If hot fixes are available on the Sage Production Management Downloads page for Mobility 6.2011 for Sage Production Management version 6.20.1.0.0, install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 hot fixes. Refer to page 18.
- ☐ Back up all company data files before proceeding to the company conversion process.
- ☐ Run the data conversion process from Library Master Main menu > Company Information.
- ☐ Activate the required and optional Sage 100 modules, if not already activated, and the Sage Production Management module from Library Master Main menu > Company Information. Refer to page 15. The Mobility for Bar Code module must be activated when Scanco Warehouse 100 is to be used when Sage Production Management is installed in Sage 100.
- ☐ Create and set up company data files for required and optional Sage 100 modules, including Production Management and Mobility for Bar Code. Refer to the Creating Company Data Files for Sage Modules section on page 15.
- ☐ Define role security for Sage Production Management and Mobility for Bar Code from Library Master Main menu > Role Maintenance.
- ☐ Register Sage Production Management 6.20.1.0.0 and Mobility 6.2011 for Sage Production Management 6.20.1.0.0 from Library Master Setup menu > Scanco Product Registration. Refer to the Registering Mobility for Sage Production Management section on page 16.
- ☐ If not previously conducted during the company conversion process from Company Information, access the Custom Office Utilities Menu and run the update customized panels by selecting Custom Office Utilities menu > Update Customized Panels to Current Level. Review the placement of all user-defined fields. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Reset all grids.
- ☐ Verify the Sage 100 and Sage Production Management versions by accessing Production Management Setup menu > About Production Management. Refer to the About Production Management section in the Sage Production Management Installation Guide.

- Set up Sage Production Management options using the Production Management Setup Wizard. Access the setup wizard from Production Management Setup menu > Production Management Options.
- Access Production Management Mobility menu > Create Mfg Mobility Import Files. Select the Proceed button from the task window to create or convert Mobility for Sales Production Management data files.
- To use Scanco Warehouse 100 with Sage Production Management installed in Sage 100, set up the Mobility for Bar Code module by accessing Mobility for Bar Code Setup menu > Mobility for Bar Code Options.

Upgrading Sage 100, Production Management and Mobility for Production Management from 2019 to 2020.1

- Complete the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 pre-installation checklist.
- Backup the entire Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium system, including programs and data files, after all data entry files are updated, and before installing Mobility for Scanco Multi-Bin version.
- Conduct a parallel installation of Sage 100 2020 when upgrading from version 2019 or lower. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- Install Sage 100 2020 Product Update 1. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- Install Sage Production Management 6.20.1.0.0. Refer to the Sage Production Management installation checklists and the Installing Sage Production Management section in the Sage Production Management Installation Guide.
- Install Mobility 6.2011 for Sage Production Management 6.20.1.0.0. Refer to the Installing Mobility for Sage Production Management section on page 11.
- Run the Sage 100 workstation setup process on all applicable workstations. Refer to the Sage 100 2020 Installation and System Administrator's Guide.
- Migrate and convert Sage 100 data to 2020.1 version 6.20.1.0. Refer to the Sage 100 2020 Installation and System Administrator's Guide.
- Reinstall Sage Production Management 6.20.1.0.0. Refer to the Sage Production Management installation checklists and the Installing Sage Production Management section in the Sage Production Management Installation Guide.
- If hot fixes are available on the Sage Production Management Downloads page for Sage Production Management version 6.20.1.0.0, install Sage Production Management 6.20.1.0.0 hot fixes. Refer to the Sage Production Management Installation Guide.
- Reinstall Mobility 6.2011 for Sage Production Management 6.20.1.0.0. Refer to the Installing Mobility for Sage Production Management section on page 11.
- If hot fixes are available on the Sage Production Management Downloads page for Mobility 6.2011 for Sage Production Management version 6.20.1.0.0, install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 hot fixes. Refer to page 18.
- Back up all company data files before proceeding to the company conversion process.
- Run the data conversion process from Library Master Main menu > Company Information.
- Confirm and modify, if necessary, role security for Sage Production Management and Mobility for Bar Code from Library Master Main menu > Role Maintenance.
- Register Sage Production Management 6.20.1.0.0 and Mobility 6.2011 for Sage Production Management 6.20.1.0.0 from Library Master Setup menu > Scanco Product Registration. Refer to the Registering Mobility for Sage Production Management section on page 16.
- If not previously conducted during the company conversion process from Company Information, access the Custom Office Utilities Menu and run the update customized panels by selecting Custom Office Utilities

menu > Update Customized Panels to Current Level. Review the placement of all user-defined fields. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.

- ☐ Reset all grids.
- ☐ Verify the Sage 100 and Sage Production Management versions by accessing Production Management Setup menu > About Production Management. Refer to the About Production Management section in the Sage Production Management Installation Guide.

Upgrading Sage 100, Production Management and Mobility for Production Management from 2020.0 to 2020.1

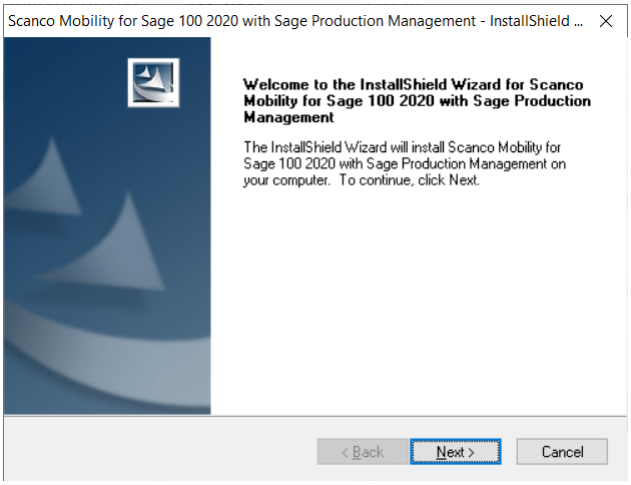
- ☐ Complete the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 pre-installation checklist.
- ☐ Backup the entire Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium system, including programs and data files, after all data entry files are updated, and before installing Mobility for Scanco Multi-Bin version.
- ☐ Install Sage 100 2020 Product Update 1. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Install Sage Production Management 6.20.1.0.0. Refer to the Sage Production Management installation checklists and the Installing Sage Production Management section in the Sage Production Management Installation Guide.
- ☐ If hot fixes are available on the Sage Production Management Downloads page for Sage Production Management version 6.20.1.0.0, install Sage Production Management 6.20.1.0.0 hot fixes. Refer to the Sage Production Management Installation Guide.
- ☐ Install Mobility 6.2011 for Sage Production Management 6.20.1.0.0. Refer to the Installing Mobility for Sage Production Management section on page 11.
- ☐ If hot fixes are available on the Sage Production Management Downloads page for Mobility 6.2011 for Sage Production Management version 6.20.1.0.0, install Mobility 6.2011 for Sage Production Management 6.20.1.0.0 hot fixes. Refer to page 18.
- ☐ Back up all company data files before proceeding to the company conversion process.
- ☐ Run the data conversion process from Library Master Main menu > Company Information.
- ☐ Verify the Sage 100 and Sage Production Management versions by accessing Production Management Setup menu > About Production Management. The Sage 100 version should display as 6.20.1.0 and the Sage Production Management version should display as 6.20.1.0.0. Refer to the About Production Management section in the Sage Production Management Installation Guide.
- ☐ If not previously conducted during the company conversion process from Company Information, access the Custom Office Utilities Menu and run the update customized panels by selecting Custom Office Utilities menu > Update Customized Panels to Current Level. Review the placement of all user-defined fields. Refer to the Sage 100 2020 Customer Upgrade Guide and the Sage 100 2020 Upgrade Checklist.
- ☐ Reset all grids, if necessary.
- ☐ Verify the Sage 100 and Sage Production Management versions by accessing Production Management Setup menu > About Production Management. Refer to the About Production Management section in the Sage Production Management Installation Guide.

Installing Mobility for Sage Production Management

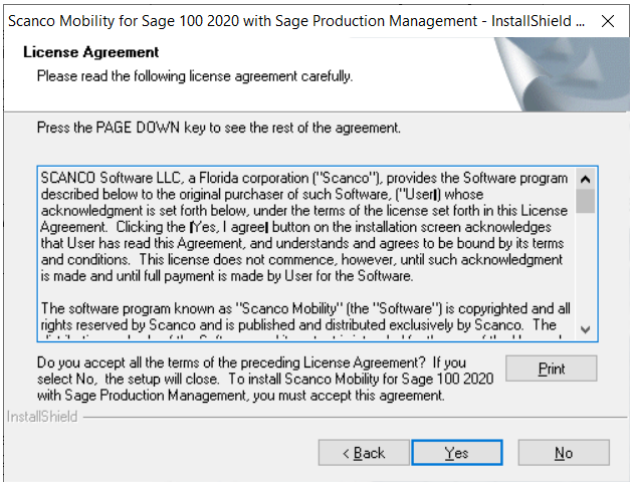
Conduct the following steps after Sage 100 2020, Sage 100 2020 Product Update 1, and Sage Production Management 6.20.1.0.0 are installed successfully.

How to Install Mobility for Sage Production Management

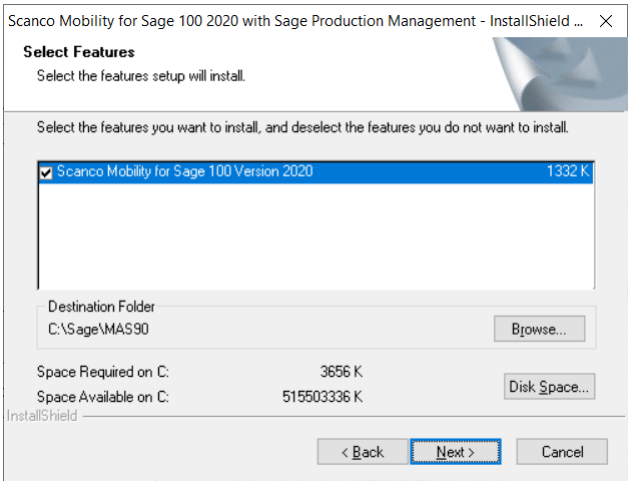
1. Download the BC62011_PM.exe file from the Sage Production Management Downloads page at http://info.scanco.com/prod-mgmt-downloads.
2. Right click on the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 executable file.
3. Select Run as administrator.



4. Select the Next button from the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 Welcome window.
5. Review the Mobility for Mobility 6.2011 for Sage Production Management 6.20.1.0.0 License Agreement.



6. Select the Yes button to agree to the Mobility 6.2011 for Sage Production Management License Agreement and to continue with the Mobility for Sage Production Management 6.20.1.0.0 installation process.
7. Accept the defaulting check box field setting for the Mobility for Sage Production Management or select the check box to install Mobility 6.2011 for Sage Production Management 6.20.1.0.0.



8. Accept the default location of Sage 100 or select the Browse button to specify the location of Sage 100.

   The Choose Folder window displays after the Browse button is selected.

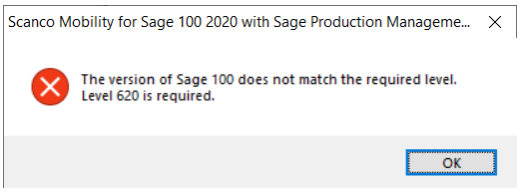
   Specify the location of Sage 100 in the Path field. Select the OK button to return to the Select Features window.

9. Select the Next button from the Select Features window. The installed version of Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium and Sage Production Management are validated.

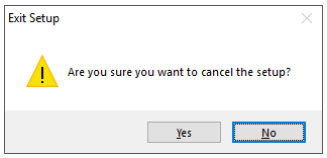
   When Sage 100 2020 version 6.20.1.0 has not been installed at the specified Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium location, the following message displays.

   Select the OK button and modify the location where Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium is installed.

   ⚠ **Warning**: When Sage 100 is installed but is not version 6.20.1.0, the following message displays.

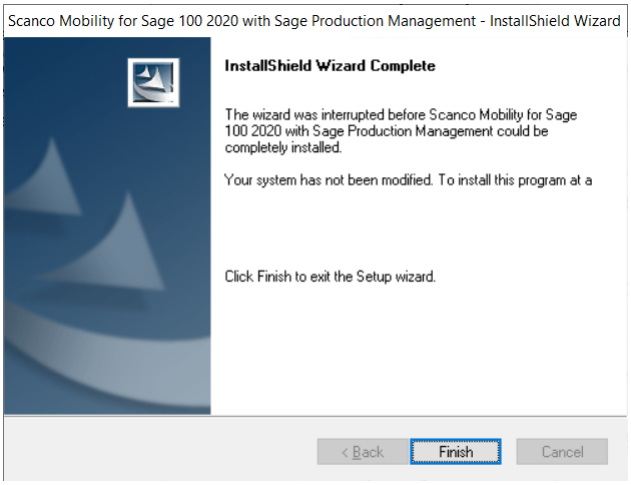


Select the OK button from the message. Select the Cancel button from the Select Features window. The following message displays.



Select Yes in the message.

Select the Finish button from the InstallShield Wizard Complete window to cancel the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process.



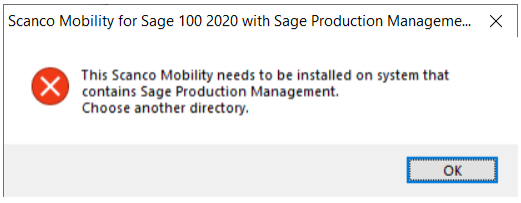
Install Sage 100 2020, Sage Production Management 6.20.1.0.0, and then install Mobility 6.2011 for Sage Production Management 6.20.1.0.0.

Warning: When Sage Production Management 6.20.1.0.0 is not installed in the selected location, the following message displays.

Select the OK button and modify the location to where Sage Production Management 6.20.1.0.0 is installed or cancel the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process and install Sage Production Management 6.20.1.0.

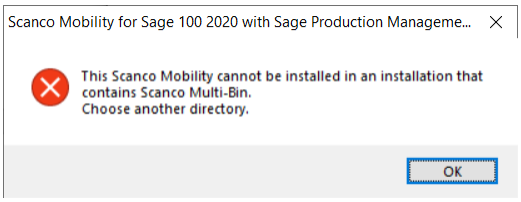
Warning: When Sage Production Management is installed but is not version 6.20.1.0.0, a message displays. Select OK and cancel the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process. Install Sage Production Management 6.20.1.0.0 and then install Mobility 6.2011 for Sage Production Management 6.20.1.0.0.

Warning: When Sage Operations Management is installed in the selected location, the following message displays.



Select OK and cancel the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process. Sage Operations Management and Mobility for Sage Production Management may not be installed in the same Sage 100 location.

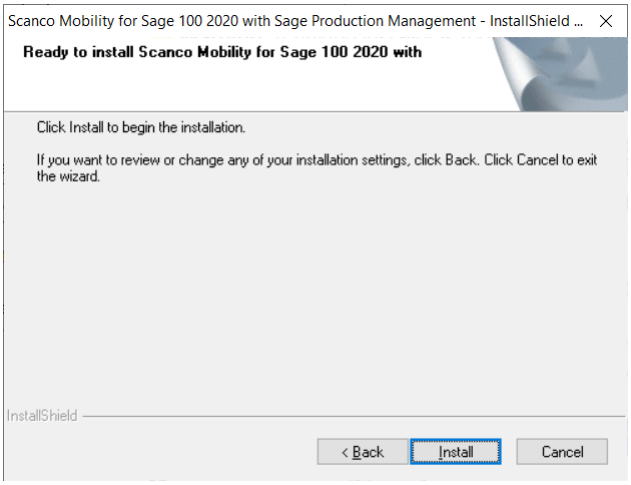
Warning: A unique installer is required for Scanco Multi-Bin for Sage Production Management. When Scanco Multi-Bin for Sage Production Management is installed, the following message displays.



Select OK and cancel the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process. When Scanco Multi-Bin for Sage Production Management is installed in Sage 100, download the Mobility for Scanco Multi-Bin 6.2011 for Sage Production Management 6.20.1.0.0 executable file and then install Mobility for Scanco Multi-Bin for Sage Production Management.

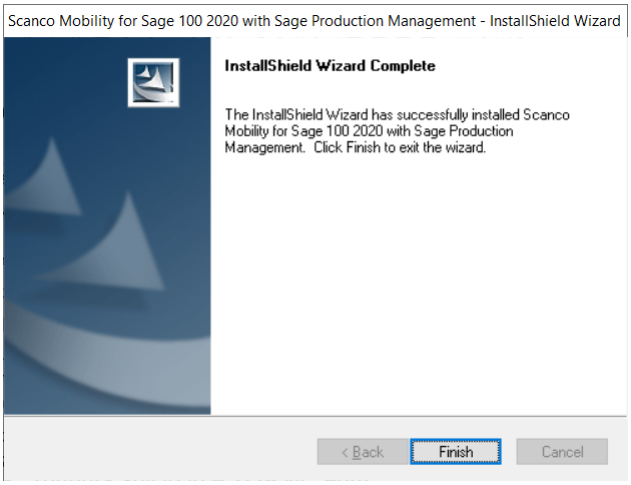
Warning: Multi-Bin 6.2011 for Production Management 6.20.1.0.0 is not available as of this publication (06/2020).

10. Select the Install button from the following window to install Mobility 6.2011 for Sage Production Management 6.20.1.0.0.



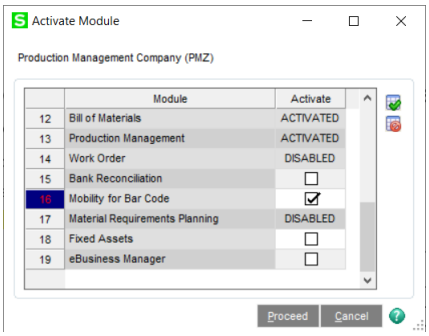
Select the Back button to return to the Select Features window. Select the Cancel button, select Yes in the message *Are you sure you want to cancel the setup?* and the Finish button from the InstallShield Wizard Complete window to cancel the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process.

11. Select the Finish button from the InstallShield Wizard Complete window to complete the Mobility 6.2011 for Sage Production Management 6.20.1.0.0 installation process.



Activating Mobility for Sage Production Management

1. Access Library Master Main menu > Company Maintenance.
2. Enter the appropriate company code in the Company Code field.
3. Select the Activate button.
4. Select the Mobility for Bar Code Activate check box.

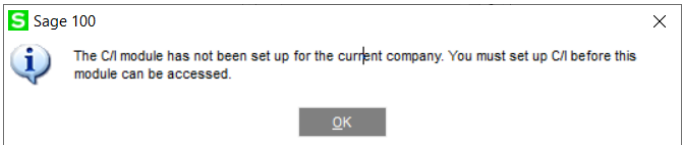


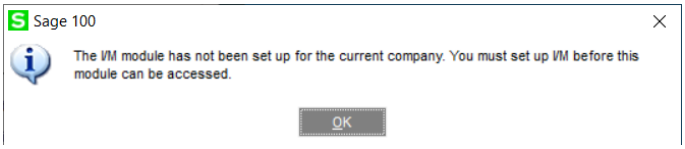
5. Select the Proceed button.

Creating Company Data Files for Required Sage 100 Modules

Company data files must be created prior to accessing Mobility for Sage Production Management tasks after Mobility for Sage Production Management is installed on an existing Sage 100 Standard, Sage 100 Advanced or Sage 100 Premium installation or after a new company has been created. Some Sage 100 modules are required to be installed to utilize Sage Production Management and Sage Mobility for Sage Production Management. General Ledger, Common Information, and Inventory Management data files must be created prior to creating Sage Production Management company data files.

The following messages display when a Sage Production Management task is accessed before company data files are created for the Sage 100 Common Information or Inventory Management modules.



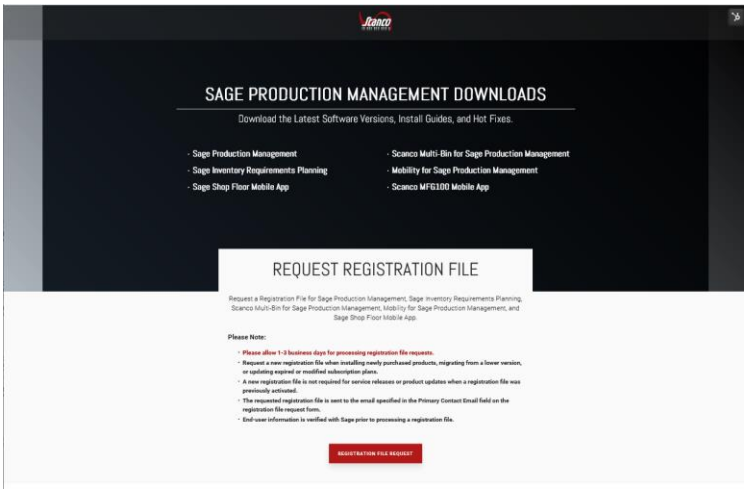


Click OK in the message. Access any Sage 100 Common Information or Inventory Management module task to access the Setup Wizard. Complete the Common Information or Inventory Management module setup process and then access Production Management Options to set up Sage Production Management.

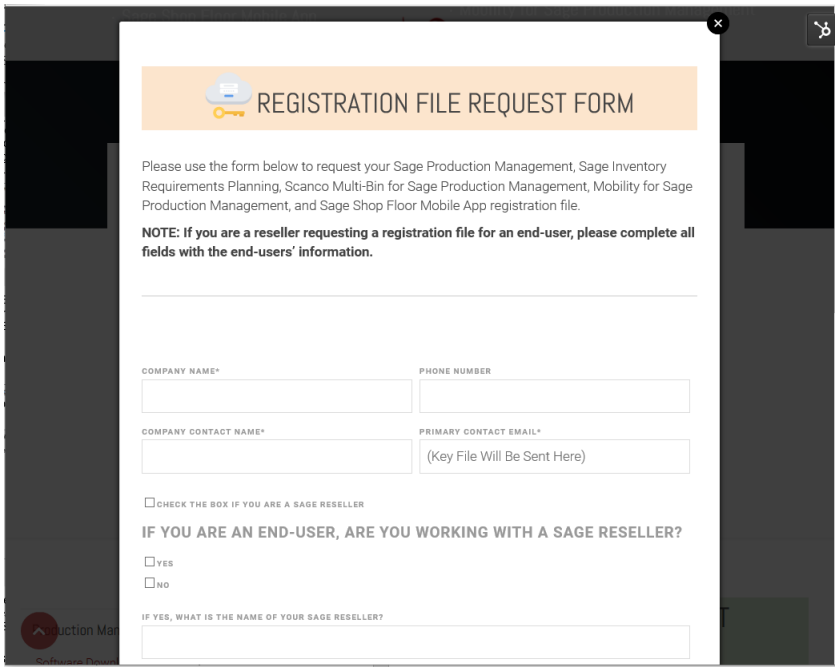
Registering Mobility for Sage Production Management

How to Obtain Mobility for Sage Production Management Registration

1. Access the Production Management Downloads page http://info.scanco.com/prod-mgmt-downloads



2. Scroll down and click on Registration File Request.



3. Enter the required information in the Registration File Request form. Fields noted with an asterisk (*) are required.

4. Select the Sage Production Management – Make to Stock and Mobility for Sage Production Management check boxes. Select the check boxes for Sage Inventory Requirements Planning, Scanco Multi-Bin for Production Management, Sage Shop Floor User/Devices, and/or Dynamic Off when these modules have been purchased.

5. Select the Submit button.

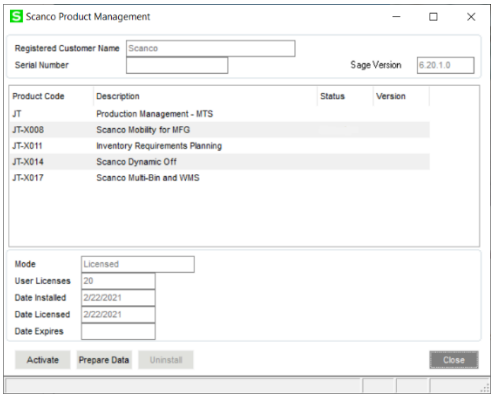
Note: Please allow 1-3 business days for processing Mobility for Sage Production Management registration requests. The Mobility for Sage Production Management registration file is sent to the email specified in the Primary Contact Email field on the Sage Production Management Registration form.

How to Register Mobility for Sage Production Management

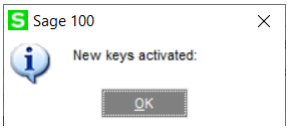
1. When a license registration file is received via email, place the registration text file at …\MAS90_Scanco in the location where Sage 100 is installed.

Note: Submit registration information before downloading from the Sage Production Management Downloads page and installing Mobility for Sage Production Management.

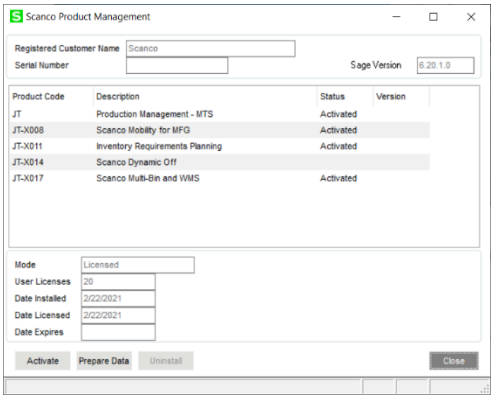
2. Access Library Master Setup menu > Scanco Product Registration.



3. Verify the correct Sage 100 Serial number and User Licenses displays.
4. Select the Activate button.
5. Select OK in the New keys activated. message.



6. Verify Activated displays in the Status field for the Scanco Mobility for MFG product code record.



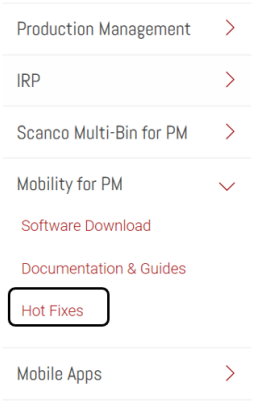
7. Select the Close button.

Mobility for Production Management Hot Fixes

Occasionally hot fixes are required to be installed after installing Mobility for Sage Production Management. Access Mobility for Production Management hot fixes from the Sage Production Management Downloads page http://info.scanco.com/prod-mgmt-downloads

How to Install Mobility for Sage Production Management Hot Fixes

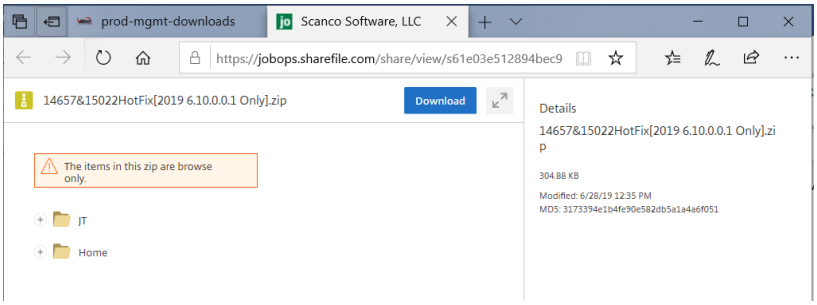
1. Access the Sage Production Management Downloads page http://info.scanco.com/prod-mgmt-downloads
2. Click on the Production Management menu option.
3. Click on Mobility for PM menu.
4. Click on Hot Fixes



5. Review the available hot fixes for Mobility for Sage Production Management for the currently installed version.

   Note: Hot fixes are version specific. Only install hot fixes for the current Mobility for Sage Production Management version.

6. Click on a hot fix link to be directed to the download file.



7. Click on the Download button.
8. Specify the location to download the hot fix.
9. Extract the hot fix file to the MAS90 directory where Sage 100 and Mobility for Sage Production Management are installed.
   Warning: If the hot fix zip file is extracted to a location other than the MAS90 directory, the hot fix programs must be copied to the file location specified in the hot fix zip file.
10. Select to replace the files in the destination if the hot file was extracted to the MAS90 directory where Sage 100 and Mobility for Sage Production Management are installed. The hot fix program is now located in the correct directory in the Sage 100 and Mobility for Sage Production Management installation.
11. Review the document(s) included in the hot fix download file. Descriptions and instructions are included in this documentation.
    The example pictured below is for Version 2019.
