Release Notes for Sage Inventor Requirements Planning 2020.3 Version 6.20.3.0.0

The following is a list of corrections and selected enhancements added to Sage Inventory Requirements Planning 2020.3 Version 6.20.3.0.0.

Product updates are cumulative; in other words, this update includes all enhancements, corrections and programs found in Sage Inventory Requirements Planning 2020 Versions 6.20.0.1.0, 6.20.1.0.0, 6.20.2.0.0, and 6.20.3.0.0.

Before installing Sage Inventory Requirements Planning 2020.3 Version 6.20.3.0.0, install Sage 2020.3 version 6.20.3.0. Refer to the Sage Production Management Installation Guide.

After installing Sage Inventory Requirements Planning 2020.3 Version 6.20.3.0.0, the Materials Requirements Planning module may not be accessed.

 **Warning:** Hot fixes may be available for Sage Inventory Requirements Planning 2020.3 Version 6.20.3.0.0. Refer to the Sage Production Management Installation Guide.

 **Warning:** Install Sage Inventory Requirements Planning 2020.3 Version 6.20.3.0.0 into a parallel test Sage 100 environment. Performing a test upgrade or a test Changes fromstall allows you to resolve issues that may occur during the live upgrade or live Changes fromstall, reducing downtime and allows you to get a rough estimate of how long the upgrade process will take. Refer to the [Sage Knowledgebase article ID 101266](#) for more information. As not noted in the Sage Knowledgebase article before step 20, third party products must be re-installed after a migration.

 **Warning:** Sage Inventory Requirements Planning 2020.3 Version 6.20.3.0.0 may not be compatible with non-Scanco third party products. If you use third-party products that integrate with your Sage product, check with the vendor of your third-party product to ensure their product is fully compatible with this release. If you integrate with other Sage products, check with your business partner or Sage to ensure that these components are compatible.

Inventory Requirements Planning
