

Scanco Mobile Delivery Tracker for Sage 300

Know where your deliveries are in real-time.

Scanco Mobile Delivery Tracker is an end-to-end tracking tool to plan, schedule and increase delivery efficiency, improve communication with drivers, and keep goods in stock.

Key Features

- Strategic Delivery Route Planning
- Enhanced Navigation
- Mobile Signature Capture
- Multiple Delivery Report

Track Deliveries on the Go

Sage 300 Mobile Mobile Delivery Tracker provides real-time delivery information on a mobile device.

Representatives can get updates and find tracking information at their fingertips. Quick response to inquiries helps to increase customer satisfaction.

With strategic delivery route planning and enhanced navigation, your deliveries are more efficient, and issues can be resolved quickly.
