Scanco Commission Manager for Sage 300

Automate Commission Planning, Calculation & Payment

Scanco Commission Manager is an add-on module for Sage 300 which calculates commissions automatically based on a predefined commission plan against an invoice or receipt.

Commission planning made easy.

Commission Manager automatically calculates commissions in real time during customer invoice or payment. The joy of selling is in the incentive earned! Super-charge your sales representatives with this live commission tracker and help them beat their target.

Assign and calculate commissions based on geography, volume, specific duration, flat amount, or percentage, and/or by the sales group or job category. Generate commissions based on cost, price, gross profit, or a percentage of the gross profit. With automatic commission calculations and seamless integration with GL in the ERP, commissions are paid on time.

Key Benefits

- **Simplify Commission Planning**
- **Eliminate Commission Calculation Errors**
- **Pay On Time, Every Time**
