# Scanco Learning Management System

Learn How to Install and Use Scanco Products at Your Own Pace

An annual subscription to the Learning Management System opens the door to a vast array of training courses on Scanco products. These self-paced courses include training videos and user guides to help you become proficient at using these products. Course tracks include product installation, setup, and use.

Current Courses

- **Scanco Warehouse 100**
- **Scanco WMS Multi-Bin Module**
- **Scanco DashPrint and Dashboard**
- **Scanco Sales**
- **Manufacturing 100**
- **Production Management Plus**
- **Scanco Property Management**
- **Scanco Procurement Automation**

Scanco LMS is available via computer, tablet, or cell phone—no roadblocks!

The My Courses area shows currently available courses and how much you have completed in each. Clicking on any course heading will take you to the training guides and videos for that section.

The social features included provide for additional continuous learning if you are willing to contribute and/or do some searching. You can collaborate with others and find answers through the Group Discussions and Knowledge Solutions links. You can both ask and answer questions.

The Transcript link keeps track of any courses you are currently taking or have completed, showing course completion dates.
